

Reduce lighting bills by up to 75%

Shoplighter Replacement

The simplest way to reduce energy bills and carbon footprint is to reduce power consumption. Replacing old lights with energy efficient lights will generate instantaneous savings post installation.

Retrofitting of b-efficient lights is a straightforward process. b-efficient lights are high quality and perfect for use in a myriad of environments such as shop displays, showrooms, reception areas, conference rooms, corridors, offices, hotels and theatres.

Our shoplighter replacements make use of an aluminium alloy heat sink and emit no UV, meaning no fading of stock or displays.

features

- Replaces traditional 70W-150W metal halide shoplights
- Emits no UV, meaning no fading of stock or displays
- Average life expectancy of light is 40,000 hours
- High quality Samsung and Bridgelux LED chips
- High quality LED driver
- Aluminium alloy heat sink design allows for cooler operating temperatures
- Meets all Australian and New Zealand safety and EMC requirements
- Locally serviced 2 year warranty

benefits

- Simple to retrofit with no extra rewiring needed
- Instantaneous savings post installation
- Combat rising energy costs
- Reduce maintenance costs
- Eligible for environmental certificates in NSW and VIC

Specifications	28W	38W	48W

We take no responsibility for any outcomes or losses to you or your business that you believe may have occurred as a result of the information you read in this brochure as you retain the responsibility for making your own business judgments. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. NSW Energy Savings Certificates (ESCs) and Victorian Energy Efficiency Certificates (VEECs) may only be created for compliant installations conducted in NSW and VIC only. The creation of ESCs/VEECs is subject to compliance with the Rules and terms of accreditation. For Urban Group Energy to create ESCs/VEECs, and for any form of discount to be applied, the person/entity responsible for the electricity bill must nominate Urban Group Energy or a third party approved to create VEECs as the "energy saver" and transfer rights relating to the creation of ESCs/VEECs to Urban Group Energy. Please note that individual Products are not 'approved' by IPART, the energy saving activity is accredited and is subject to the Rules and terms of accreditation.
